

GROWTH PROMOTER **NAALF**

Ingredients	Composition
-------------	-------------

Butyric Acid Glycerides	0.12 mg
Propionic Acid	0.1 mg
Acetic Acid	0.04 mg
Phosphoric Acid	0.025 mg
Lactic Acid	0.01 mg

Description

Improve Enzymatic action by increasing efficiency of Enzymes, thus improve digestibility, feed intake, FCR & improved final weight. Control Pathogens (E.Coli, Salmonella, Clostridium) in digestive tract and improve lactobacilli production resulting in better health. Increase villi length and make them resistance for pathogens and toxins.

Dosage

0.5-1.5 lt / 1000 litres of drinking water
