

NB SUPPORT **LYSODEA**

Composition

Each kg contains

Vitamin A	9 gm
Vitamin D3	4000000 IU
Vitamin E	30,000 IU
Lysozym HCL	500 gm

Description

Lysodea plays a vital role in promoting gastrointestinal health and supports the immune system. Lysodea has an enzyme with antimicrobial properties, aiding in the defense against bacterial infections. Lysodea supports the balance of beneficial microflora in the gut, contributing to improved digestion and nutrient absorption.

Dosage

1 gm per 6 - 8 litres of drinking water

LYSOZYME
