## Vitamin Trio

Essential trio for

**kids**

*For children who are difficult in food choices*

# SIMDAC

A trio of essential vitamins for a healthy and happy childhood!

**SIMDAC** drops contain valuable combination of Vitamin A, D and C essential for maintaining healthy vision and promoting proper growth and development in children. Nutritional drops for children are designed to supplement their diet and ensure they receive essential vitamins crucial for their growth and development.

**SIMDAC** intake during childhood adds value by supporting growth of bones and teeth, acts as a powerful antioxidant that aids the body in fighting off infections and illnesses. Vitamin A is a vital nutrient crucial for maintaining healthy skin, vision, and a robust immune system and plays a pivotal role in supporting the development of various tissues and organs in children, including the eyes.

Vitamin D referred as the "sunshine vitamin," is essential for the absorption of calcium and phosphorus, promoting strong and healthy bones and Vitamin C known for its immune-boosting properties, helps protect cells from damage. In children, it is vital for the formation of collagen, which is essential for the growth and repair of tissues, including skin, blood vessels, and bones.

## BENEFITS:

- Boosts energy production, healthy growth and development.
- SIMDAC supports child's growing body and well-being.
- Supports the body's natural healing processes, including the repair of wounds and injuries.
