Coenzyme Q10

PRIORITIZE YOUR WELL-BEING WITH  
SIMZYME'S HOLISTIC APPROACH TO HEALTH.

## SIMZYME 50MG OR 100MG

Simzyme capsule (CoQ10) is a quality supplement with minimal side effects and low potential for drug interactions. CoQ10 also known as CoQ, Ubiquinone or Vitamin Q10 is the key ingredient, residing naturally in cells, particularly in the mitochondria where it plays a crucial role in the oxidative phosphorylation process.

The primary biochemical role of CoQ10 is to act as a cofactor in the electron transport chain. This chain of redox reaction is central to the synthesis of adenosine triphosphate (ATP), which is the cell's main energy source.

Though, CoQ10 supplementation is considered safe for most individuals, it's always a good idea to consult with a healthcare professional.

Simzyme is not only pocket friendly but also promises quality provision of health along improved quality of life.

## CO ENZYME Q 10

CoQ10 is lipid-soluble, beyond its role in energy production it acts as an antioxidant through several mechanisms. It has the potential to regenerate other antioxidants, such as tocopherol (vitamin E) and ascorbate (vitamin C), further enhancing the cellular antioxidant defense system.

It provides many other extensive benefits when consumed via supplements, including;

- Helps keep your heart healthy
- Boosts the production of energy in cells
- Improves body functioning and organ performance
- Can lower the occurrence of migraine attacks
- Restores CoQ10 levels that naturally limits aging process

Health is our top most priority while offering this supplement and that's what stands out our product out of all.

**DOSAGE:**  
1 capsule daily  
or as directed by **PHYSICIAN**.
